

DECEMBER
3-7, 2018

Almost 610,000 people are expected to die from cancer in 2018, yet **many of those lives could have been saved through earlier detection.**^{1,2}

Talk to your doctor about what screening tests may be right for you – and make the appointment to get screened.

1. American Cancer Society. Cancer Facts & Figures 2018. Atlanta: American Cancer Society; 2018. Accessed Jan. 8, 2018.
2. National Cancer Institute. Cancer Screening Overview (PDQ®) Health Professional Version. <https://www.cancer.gov/about-cancer/screening/hp-screening-overview-pdq>. Accessed Jan. 8, 2018.

A SIMPLE ACTION. A BIG IMPACT.

According to the American Cancer Society, cancer screening increases the chances of catching certain cancers early, when they are most likely to be treated successfully.¹

RECOMMENDED SCREENING TESTS:

Breast Cervical Colon Lung Prostate Skin
